Here is a warning to people on the lookout for bargain counter hieyeles. A few days ago a speculator—living in Rooklyn, wrote to a western wheel works, asking for a quotation on 1,000 bicycles, on which the purchaser, declared his intention of placing name plates of his own, "What I, want," the letter read, "is a bicycle having a high finish and one that wilk hang together long enough to be sold. I don't care how bad the tubing may be; all that I desire is a good-looking bleycle for small money. Few people can tell the quality of a bleycle. If it is cheap and looks well they enap at the supposed burgain, "This is a plain statement of fact and should serve to warn the intending purchaser of the folly of buying an unknown wheel of an irresponsible dealer. The only safe way is to trade with a reputable agent of a reputable house. Then you know that you get your money's worth, and that if your wheel should prove defective that the agent will give you another or replace the weak or damaged part without extra cost.

Wheelmen should avoid all sweetenad drinks when on tour. They only serve to increase the thirst. The most bene-tickal drink is ginger ale. The imported article is the best, and it served in a large glass with a fresh egg broken in it and thoroughly mixed, the portion is delicious and exceedingly refreshing.

Collisions are sometimes unavoldable, no matter how careful a rider may be. Of course, it is always best to avoid a smash up, if such a thing is possible. There are cases, and it happens to nearly every cyclist, when a collision cannot be avoided. Then the old saw: "Self preservation is the first law of nature," comes in. Put on a little extra steam and strike your adversary's wheel head on. Don't allow him to hit you broadside or your wheel won't be worth much. Above all always keep rool and observe the rules of the road. If you do this, it will be the other fellow's fault if there is any trouble.

To-day's games—Saginaw at Wheeling, Jackson at Washington, Fort Wayne at New Castle, Toledo at Youngstown.

The Wheelings played a fine game of ball yesterday afternoon and won in a walk from the Saginaw team. Campbell, the young Sistersville left-hander, was in the box for the locals and pitched a great game, letting down the visitors with five safe drives, one of which was of the doubtful order. For the visitors Miller started to twirl, but he got such a hot reception in the second inning that he was relieved by Allen, the pitcher who piloted Wheeling to defeat when the Saginaws were here early in June. Allen did good enough work just after getting in the game, but in the fifth he was hit safely five times, and gave two bases on balls. This, with

gave two bases on balls. This, with four totten errors in the field by the Saginaw team, gave Wheeling ten runs and d lead that would have taken the Saginaws a week to overcome at the rate Campbell was pitching.

Thurston played his first game with Wheeling and distinguished himself both at the bat and in the field. When he came to the plate in the second liming he was given a hearty round of appliance as his work in the field had at once placed bim in favor with the cranks. Kane was on first, having made a safe drive. Thurston caught the first ball pitched for a drive over the fence, but it was foul by five feet. The next he caught good and hard; it was a homer over left, fie could in the was tarted by career on the Wheelings in better style. In the field he made several fine pick-

FINED BYRON M'KEOWN.

The Millionaire Magnate Soaked by Umpire Keefe.

Epecial Dispatch to the Intelligencer.

WASHINGTON, Pa., July 23.—There seems to be a hooded-over the "Little Senators." Whenever the team makes errors they nearly always result in runs for Washington's opponents. The "Jaxons" were enabled to win the game this afternoon through the misplays of the home nine. Miller was very effective, except in the sixth when Washington earned three runs on doubles by Hinehart and Martin and singles of Donaghy and Cargo. As Martin was scoring Washington's first run, Byron McKeown ran in with him from the third base coaching line and that bothered Myers and Miller, who were covering the plate, Umpire Keefe fined the wealthy owner of the Washingtons. \$5 and sent him to the bench. Howelers pitched well, keeping fackson's lefts few and far between. In only two innings, the fourth and ninth, did the visitors make two hits. Curran struck out three films. The fielding of Deisel at short and a nice catch of a line hk from Ritz's bat in the inith by Curis, when two men were on bases, were features. The score:

#### Not Tatlenders Nov.

Special Dispatch to the Intelligencer.
YOUNGSTOWN, July 23.—Schieble pitched great ball to-day and gave To-ledo a decisive beating. Kelb's southpaw curves had no terrors for the extallenders.

Batteries - Youngstown, Scheible and Zinram; Toledo, Kelb and Arthur, Still They Win.
Special Dispatch to the Intelligencer.

NEW CASTLE, July 23.—Both pitchers were hit freely, Carrick being not the least puzzle to the locals. Fort Wayne put up a loose fielding game.

### BASE BALL-COMMENT.

Outfielder Robinson did not play with Wheeling yeaterday. A telegram from President Power instructed the player to do nothing until he could investigate the respective claims of Wheeling and Jackson to his services. It seems Jackson sent him advance money whicharrived after he had left for Wheeling, it is hoped Wheeling will win out in the contest for this player's services, as he will be a very valuable man for the Nallers.

The second game of the series with Saginaw will be played this afternoon. Garvey or Borchers will twirl for Wheeling, probably the latter. Martin will likely be in the box for the visitors. Cogswell, who shut out New Castle on Wednesday, will pitch for Saginaw tomorrow.

Already the Toledo papers are getting mixed up in the standing of the Interstate teams. The Toledo Commercial had New Castle losing two games to Saginaw Wednesday, and piaced Toledo in the lead. The Commercial man gets another guess. This morning Toledo is in third place. The Commercial, Blade, Eee, et al, are likely to have their favorities on top just the same. Toledo's a great town to win championships in its mind's eye.

### Gladness Comes

Gladness Comes
With a botter understanding of the transient nature of the many physical ills, which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge, that so many forms of slokness are not due to any actual discase, but simply to a constipated condition of the system, which the pleasant family laxative, Syrap of Figs, premptly removes. That is why it is the only remody with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal denaliness without debilliating the organs on which it nots. It is therefore all important, in o'ver to get its beneficial effects, to note whon you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, laxatives or other remedies are then not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely seed and gives most general satisfaction.

Sed and gives most general satisfaction.

Captain Danford has made a special study of these questions and the announcement that he will begin his campaign at that point will insure a great meeting for that section.

The local manager of the Populist literary bureau is puzzled just now to understand whether he is the innocent victim of misplaced confidence, or the tool of a superior who has sold out to the gold bugs. He has been distributing speeches as he supposed in the interest of free silver, but the other day he discovered that he was handing out that able argument of John G. Carlisle on the money question, under cover of the "frank" of Senator Teller. The Populists, like some others, believe there can be no campaign of education unless the literature is confined to only one side of the question, hence the distress of this devoted manager of the literary bureau. But he did a good work while he was at it.
